#### **THE FORECAST IS . . . BEEF**

The general optimistic attitude towards the future of the beef cattle business, seems now more justifiable than ever since the recent cattle census figures were released that indicate from 3,000,000 to 4,000,000 head of less cattle in the country than had previously been stated.

It's a pretty safe bet that the best investment any cowman can make these days, is to buy a better bull than he has been using, even if he owns 10 commercial cows.

40 Bulls sell in this State Sale; proven herd sires, coming two-year-olds and strong yearlings, ready for service when grass rolls around. It's an offering backed by outstanding herd bulls and great producing cow herds. You'll find bulls that can do the job in the best commercial and registered herds in the land. Only 8 females are being offered because Missouri Shorthorn breeders themselves are interested in building up their own herds. However, you will find cows with calves at foot, bred and open heifers of good pedigrees and outstanding quality.

Do plan now to be in Sedalia, Missouri on Saturday, March 25th to do your bull buying – it is the place where you can get the most for your money this year.
